EXPERIENCE

Application Developer

Conexos / NTT DATA Business Solutions

July 2024 - In progress Vitória, ES

Backend developer working on the implementation and maintenance of the Conexos Cloud ERP system. Responsible for developing new features, troubleshooting issues, and improving system performance, ensuring reliable and scalable solutions.

- Java
- PL/SQL

Software Development Intern

Conexos

June 2022 - June 2024 Vitória, ES

I worked as part of the development team focusing on the creation and maintenance of reports in the Conexos ERP system. I contributed to improvements in data visualization and in the performance of database queries.

- PL/SQL
- Jasper Reports

OBJECTIVES

Seeking a software development position where I can leverage my 4 years of experience with Java and Oracle to build scalable and efficient solutions. I am particularly interested in opportunities that involve Information Security and Artificial Intelligence integration, where I can deepen my technical expertise and contribute to innovative projects. I aim to continuously grow as a professional while delivering high-quality results and adding value.

PERSONAL SUMMARY

Computer Science graduate from the Federal University of Espírito Santo with a strong foundation in software development and problem-solving. Experienced in Java and Oracle technologies, with a proactive mindset and a passion for learning new tools and methodologies. I thrive in collaborative and challenging environments, where I can apply analytical thinking and creativity to deliver effective solutions and support project success.

PHILOSOPHY OF LIFE

“Still Learning”
